NOTABLE NON-CLASS-ACTION ENGAGEMENTS

Holocaust Era Asset Restitution Taskforce (Project HEART)

An initiative of the Government of Israel and the Jewish Agency for Israel (JAFI), Project HEART – Holocaust Era Asset Restitution Taskforce – sought to provide the tools, strategy, and information to bring about a small measure of justice to eligible heirs of Jewish victims, the victims themselves, and the Jewish people as a whole.

During its initial phase, Project HEART focused on identifying individuals in 137 countries with potential claims regarding the following types of private property for which no restitution was received after the Holocaust era: (1) private property that was located in countries that were controlled by the Nazi forces or Axis powers at any time during the Holocaust era; (2) private property that belonged to Jewish persons, as defined by Nazi/Axis racial laws; and (3) private property that was confiscated, looted, or forcibly sold by the Nazi forces or Axis powers during the Holocaust era.

Obama for America – 2008 and 2012

Retained by Obama for America in 2007, A.B. Data was responsible for designing, analyzing, and directing its grassroots fundraising efforts for the presidential campaign of 2008. From February 2007 to Election Day 2008, A.B. Data's direct-marketing efforts helped to elect President Barack Obama, raising a record amount of money – almost \$108 million – via the mail from more than 700,000 donors. As a result, A.B. Data was reappointed to lead President Obama's 2012 direct-marketing campaign in his attempt to gain reelection. As the sole administrator of the direct-marketing campaign for Obama for America 2012, A.B. Data designed, printed, and mailed each direct-marketing piece to raise money and awareness about President Obama's candidacy and efforts for reelection in 2012. A.B. Data's effort shattered all previous records, raising more than \$147 million through the mail from almost 875,000 individual donors.

Doctors Without Borders/Médecins Sans Frontières

In 2009, A.B. Data was chosen to manage all facets of the direct-mail program for Doctors Without Borders/Médecins Sans Frontières (MSF). MSF is one of the most respected organizations in the world, having won the 1999 Nobel Peace Prize for its emergency medical humanitarian response to people around the world caught in armed conflict or suffering from epidemics, malnutrition, and natural disasters without access to health care. MSF is known for its fierce independence and its refusal to “look the other way” when a crisis is caused by the failure of a government, either through passive or aggressive actions. MSF raises \$84 million a year through its direct-marketing program, and it mails 17 million prospect pieces annually. MSF's house file consists of 465,000 12-month donors and about 800,000 lapsed donors – and it has 38,000 monthly donors. MSF's total house-file volume is 11 million a year.

Holocaust Victim Assets Litigation (Swiss Banks) – \$1.25-billion settlement

As a court-appointed notice administrator for this litigation, A.B. Data played a key role in a worldwide Phase I notice effort that resulted in the processing of more than 500,000 initial questionnaires. In Phase III of the administration, A.B. Data delivered notice to more than 10,000 Jewish communities in 109 countries and administered international help and call centers in Phases I and III that directly assisted more than 100,000 potential claimants.

A.B. Data created a class-appropriate notice targeting Romanians (Gypsies) in 48 countries and directed hundreds of staff members to communicate orally and directly with Romani communities and individuals. A.B. Data notified more than 2 million people and, as designated by the International Organization for Migration (IOM), directly assisted more than 22,000 Romanians in 17 countries of central and eastern Europe with claim completion.

German Forced Labour Compensation Programme (GFLCP)

As designated by the IOM, A.B. Data located more than 43,000 Romani survivors in 17 countries of central and eastern Europe who were potentially eligible for humanitarian aid. A.B. Data created a comprehensive database for the GFLCP and the Holocaust Victim Assets Litigation and directly assisted more than 11,000 Romanians in eight central and eastern European countries with claim completion.

The Wilderness Society

In 2012, A.B. Data was chosen to oversee and implement all facets of the direct mail and online fundraising programs for The Wilderness Society.

The Wilderness Society – with 500,000 members and supporters – is the leading American conservation organization working to protect our nation’s beautiful wildlands. Since 1945, it has been at the forefront of nearly every major public lands battle, and its collaborative style and focus on practical solutions have saved some of our most beloved natural treasures from destruction.
